Technical Skills

- Coding languages: Java, JavaScript, Python
- Client-side technologies: HTML, CSS, React.js
- Server technologies: Node.js, Express.js
- Data storage solutions: MongoDB
- Key principles: Data structures and algorithms, OOP
- Tools and platforms: Git, GitHub, VS Code

Websites, Portfolios, Profiles

- <https://github.com/RAKSHIT6398>

Entry-level software developer candidate with a solid understanding of data structures and algorithms. Experienced in full-stack development using the MERN stack, with a track record of building real-time applications. Dedicated to enhancing web application performance and scalability.

Education

Expected in
2027-08

Bachelor of Technology (B.Tech): Computer Science And Engineering

IIMT Engineering College - Meerut

- [IIMT Engineering College], AKTU
- Currently in 3rd Year (6th Semester)

Projects

1. Cryptalk – Real-Time Chat & Video Call Application, Live: <https://cryptalk-video-call.onrender.com/login>, Built a full-stack real-time chat application using MERN Stack, Implemented user authentication system, Developed real-time messaging and video calling features, Designed responsive and user-friendly UI, Managed backend APIs and database using MongoDB. 2. Doctor Sphere – Medical Website, Live: <https://doctorsphere.netlify.app/>, Developed a responsive healthcare website using HTML, CSS, and JavaScript, Focused on clean UI/UX for better accessibility, Successfully deployed using Netlify

DSA & Problem Solving

- Solved 60+ problems on Data Structures and Algorithms
- Practicing regularly to improve coding skills
- Topics covered: Arrays, Searching, Strings, Recursion, Basic Algorithms

Strengths

- Strong problem-solving ability
- Quick learner and self-motivated
- Consistent and disciplined in learning
- Good understanding of full-stack development

Achievements / Activities

- Built and deployed real-world projects
- Actively learning MERN Stack and DSA
